COLUMBUS, OHIO: SATURDAY MORNING, - - - APRIL

The News. We print this morning, under our telegraphic head, very important news, which looks as it the Rebellion might be nearly at an end, and as if Peace might soon again bless our afflicted and stricken country We half with joy unspeakable the news that gives promise of the better day to come There was general rejoicing in this city yesterday and last night over the prospect of an early Peace and a restored Union. The only persons that we saw who did not rejoice over this prospect, were some Shoddies who will be cut off from making more than their share of money out of the war-

Pettiness in Legislation.

Nothwithstanding the self-evident proposition that where, as was urged in our State Senate on Thursday, there is in the State but one benevolent institution of a particular class, such institution should be located at, or near the State Capital, a majority in the Senate, if not in the House seem bent on removing the asylum for Idlots from Columbus. The trustees of that institution have already, under authorityfrom the Legislature, purchased grounds for a site, a tew miles west of this city; They now ask an appropriation to enable them to suitably prepare the grounds and erect the necessary buildings.

For some time past an effort has been making in the Senate and outside of it, to remove the Idiotic Asylum to Mount Vernon. A gentleman came down here from that vicinity, not long since, on that express business; visited the Senate Chamber, and made a proposition to sell the State the Round Hill property, as it is called, owned by Mr. Curris, the father-in-law of Senator DEVIN. The Senate sent a committee, who were accompanied by Senator Davin, to examine the property and report upon its sultableness for an Idiotic Asylum. The majority, that is to say, all but one of the committee, reported favorably to the purchase of the Curris property, and recommended that the State pay \$25,000 for it.

When the provision in the General Appro. priation bill, making an appropriation for the new Idiotic Asylum, came up in the Senate, the question arose whether the Asylum should be located at Columbus or Mount Vernon. Several sessions were almost entirelength it took the form of an alternative, as to whether the asylum should remain at Columbus, or be removed to some other place. It was soon evident, from the strenuousness with which the removal was sought to be effected, and the time consumed in urging it, that the majority had predetermined, from some petty political spite toward Columbus, or for some other equally absurd reason, that the asylum should not remain at the State Capital, whether the State or the unfortunate class whom the institution was designed to help, would be benefited or injured by Its removal.

For the modus operandi of this petty legis lation in the Senate, the reader is referred to our legislative report of Thursday. He will there see how the majority voted down the most reasonable and prudent propositions, in order that they might so load the appropriation for the Idiotic Asylum with conditions, as to compel its entire abandonment or its removal from the State Capital or its vicinity. And they succeeded so far as they had the power. When men, grave legislators, will thus yield to the influences of pussion or political prejudice, what may we not expen?

"The Key-Note of the Campaign in Ohio."

The Cincinnati Gazette of the 6th inst makes this announcement, editorially:

"A large Union caucus was held at Col-"A large Union caucus was held at Colnmbus last night. It was decided to hold
the State Convention on the 21st of June.—
Speeches were made by General Schenck,
Hon. J. A. Bingham and others. The sentiments advanced in regard to the treatment of rebel States may be regarded as
the key-note of the campaign in Ohio. The
Union people will rally on that platform
and sweep everything before them."

"The sentiments advanced in regard to the treatment of rebel States," may be inferred from the following report, which appears in the same issue of The Gazette

ith the above paragraph: "After the transaction of business, Gen.
Schenck was loudly called for, and he responded in a speech of great power. He held that the work which the loyal part of the country had in hand was but fairly begue, or at any rate but half finished. After the glorious victories in the field came the work of securing, on a firm foundation, the Hepublic thus saved from perishing. He ork of securing, on a firm foundation, the tepublic thus saved from perishing. He huded to the inclination some people have a compromise, and while he did not think hat the President, under present circumances, would accept any disgraceful commances, we as past experience has taught to the scheme of allowing representaves in Congress from the rebellious States, hich up to this time had been fortunately efeated. This principle was wrong. In iew of these facts, he considered the coming campaign in Ohio and in other States no of greater importance to the county than any we have yet had. The Excenve of the State, the State Legislators and he members of Congress must be men of offlity, and whose positions are not equivolation that the endorsed what his friend, Genchenck, had said. He spoke more particulations

"How John A. Bingham was next called out, and he endorsed what his friend, Gen. Schenck, had said. He spoke more particularly on the proposition of permitting the States in rebellion to now assume their former status in Congress, and in the Union without any preliminary action. He denounced, in that eloquent and severe manner for which he is so much noted, the course of The New York Herald and Tribune, in demanding that the fatted calf shall be killed now, and Jeff. Davis, Robert Toombs, and others equally in guilt, invited to partake of the feast. The people must rebuke this pusillanimity. They must declare at the ballot-box that until these rebellious

States have organized State Governments in | States have organized State Governments in accordance with the requirements of the coordance with the requirements of the constitution, and have taken the oath as rescribed in that Constitution, they shall have no Representatives in Congress.

"General Schenck and Mr. Bingham were repeatedly interrupted with applause, and attogether they were received in a manner highly complimentary, but such as their regulation of public schools in the city of Columbus," passed February 8, 1845, and the act amendatory thereto, passed february 16, 1849, and authorizing and additional school tax in said city.

"The key-note of the campaign in Ohio," then, is the doctrine which has been put forth by Whiting, Sumner, Stevens, and other Radicals, that secession was successful in taking the rebellious States out of the Union, and that they must be again regularly admitted by Congress, before they will be entitled to the rights and privileges now enjoyed by the adhering States. This is in conflict with the doctrine on that subject held by the Democratic party, as well as by a large portion of the Administration party; and we are gratified to find the Republican leaders in Ohio putting it forward as a prominent plank in their Platform for

the approaching campaign. The Gazette

will find that the people will not rally on

that Platform and sweep everything before

Dr. Scott. Our readers learned from our legislative report, that Dr. James Scott, several days ago, resigned his position as Representative from Warren County. He did this to accept the Probate Judgeship of his County, which had become vacant by the resignation of Judge DUNLEVY, and been tendered to the Doctor. He was a member of the House for three terms, and left, we believe, with the respect and esteem of all his associates. The Doctor is a strong partisan but a courteous gentleman, and will be missed in the Legislature. We doubt not he will discharge the duties of his new position creditably and acceptably.

THE Democracy carried every thing before them at the late election in the good old county of Wayne. Well done!

The Democracy of Oxford township did exceedingly well at the late election. They elected a Justice of the Peace, two Trustees, and an Assessor. Last spring they lost their whole ticket, and last fall they were beaten about 30 votes. The electio was also a pointed rebuke to the member of the Legislature from this county, Hon. Joseph Ferrell, who deserted the cratic party four years ago. He left his seat in the House, and worked all day Monday to be elected Justice of the Peace in Oxford township, but he was handsomely beaten by Robert Armstrong, Esq., one of the best Democrats of Guernsey county.-Guernsey Jeffersonian, April 6.

BOARDING .- A FEW DAY BOARD-

SPECIAL NOTICES.

A FEW BEASONS WHY THE] [] AMERICAN WATCH

IS THE BEST. It is made on the best principle, while the foreig watch is generally made on no principle at all. The foreign watch is mostly made by women and boys, BY HAND. While their labor is cheap, their work dear at any price. Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buy-er is the party most thoroughly seld. Those who have kept "ancres," "lepines" and "Swiss levers' in professed repair for a few years will appreciate

the truth of our statement.

THE PLAN OF THE AMERICAN WATCH. Instead of being made of several hundred little pieces, serowed together, the body of the American Watch is formed of SOLIO PLATES. No jar interferes with the harmony of its working, and no sudden shock can throw its machinery out of gear. In riding or any busine a pursuit, it is all held together as firmly as a single piece of metal. It is just what all machinery should be-1st, ACCURATE, 24. SIMPLE, 34. STRONG.

4th. ECONOMICAL. We not only secure CHEAPNESS by our system but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign makebelieves, but for its real value it is sold for one-half the price. OUR SOLDIER'S WATCH (named Wm. Ellery)

is what its name indicates-Solid, Substantial, and always Reliable-warranted to stand any amount of Marching, Riding or Fighting. OUR NEXT HIGHEST QUALITY OF WATCH (named P. S. Bartlett) is similar in size and general appearance, but has more jewels, and a more elaborare finish. OUR LADIES' WATCH, recently brought out,

them of rare beauty and workmanship, is quite small, but warranted to keep time.
OUR YOUNG GENTLEMAN'S WATCH Is neat, not large, and just the thing for the pocket of Young America.

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are

still unable to supply the constantly increasing de-

is put up in a great variety of patterns, many of

OUR THREE-QUARTER PLATE WATCH is thinner and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the vibration caused by changes of temperature. These watches are the fruits of the latest experiments in chronometry, and are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.

The first letter of their value is yet scarcely appreciated.— When they are better known sudden death and con-tinued sickness will be of the past. Let those who know them speak right out in their favor. It is a

duty which will save life. Ourrace are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection.
